# SERVICE | CAR STEAM WASH

**Our latest addition is state of the art equipment from Karcher i.e. Heavy Duty Steam Wash, which can clean the debris and sludge from your car and restore the car to its original condition.**

## **Benefits of Steam Wash:**

- 1-** Steam cleaning has been known to extend the overall life of the car
- 2-** Through this process the source of any types of fluid leaks can be identified. Also, the steam clean helps in restoring the appearance of the engine once the fluid leaks have been fixed.
- 3-** When you perform steam clean on your car engine, it reduces the incidence of engine fire significantly.
- 4-** When you perform steam clean on your vehicle it removes all the sludge, dirt, grime, tar bugs and other materials commonly found on car bodies and suspension
- 5-** Interior Steam Clean can help restore your interior condition and remove all the stains from your interior.

# SERVICE | CAR AUTO DETAILING

**We use genuine 3M, Meguiar's & products for detailing.**

Detailing involves a thorough cleaning and reconditioning of both the exterior and interior of your vehicle, entailing a meticulous step-by-step process to restore its beauty and protect your investment.

The single most important aspect of auto detailing is your vehicle's need for protection from elements that can damage your vehicle over the years. A common misconception is that a vehicle's "clear coat" protects the exterior finish so that regular maintenance is not required. In reality, a wax coat should be applied at least twice a year to the painted surface to protect the finish from contamination and oxidation.

## **BENEFITS OF AUTO DETAILING**

**Car detailing is one of the most essential preventive maintenance measures you can do for your vehicle. This protects the car from the damaging effects of the environment and prolongs the lives of components and parts.**

**Following are the few benefits of auto detailing;**

- 1- Appearance is everything! Sparkling looks of your vehicle increase its resale value
- 2- Removes germs and Reduces allergies
- 3- Keeps the dirt from sticking quite so easily
- 4- Prevents rust
- 5- Extends the lifespan of the vehicle
- 6- Provides long term protection - By removing contaminants which can eat into the finish (leather, chrome, vinyl, paint, etc.) and then where appropriate, sealing it, your car will stay in top condition for longer.

## SERVICE | CAR AUTO DETAILING

- 7-** Detailing provides protection from the long-term effects of environmental exposure (e.g. Tree Sap, Rail Dust, UV Rays, Acid Rain, and Road Salt).
- 8-** Prevents from Buildup of oil and dirt on rubber pipes deteriorates rubber hoses, etc.
- 9-** Dirt on high voltage parts can cause arcing and tracking. Dirt can be drawn into inlet manifolds etc.
- 10-** Keeps the rubber hoses from cracking and drying out.
- 11-** Prevents paint failure.
- 12-** Removes interior stains before they become set and permanent.
- 13-** Prevents brake dust staining.
- 14-** Removes water spots.
- 15-** Engine Detailing cleans off dust, dirt and various leaks. It allows your engine to run cooler.
- 16-** Improves safety - Dirty mirrors and windows are a health hazard because they reduce visibility, especially when the sun is shining. Car detailing involves removing all the haze that reduces visibility.
- 17-** Headlight restoration clears oxidized and cloudy headlights which improves the brightness of the lights.
- 18-** Reduces maintenance and repair costs - detailing significantly improves the performance of the car and will eliminate the costly repairs.
- 19-** Corrosion of the body, caked-on dirt, rusting and wearing out of seats significantly reduces the life of a car.

# SERVICE | WHEEL BALANCING & ALIGNMENT

We have computerized wheel balancing and Alignment equipment's that can help your vehicle to perform at best possible manner.

## Signs of Wheel Balancing:

- Excessive vibration in the steering wheel at certain speeds
- Floorboard vibration when certain speeds are reached
- Cupped wear pattern in tire treads

## Why Wheel Balancing:

- Safety
- Eliminates Excessive Tire Wear
- Reduces Fuel Consumption and Running Costs
- Smooth Running and Reduces Repair Bills

## Need of Wheel Balancing:

Wheels balancing and alignment services are recommended on every 10-15 thousand Kilometers or sooner if wheel vibration can be felt.

## Indications of Poor Alignment:

- Vehicle pulls to one side
- Wheels do not point straight ahead
- Noticeable uneven tread wear
- A recent accident or collision

# SERVICE | WHEEL BALANCING & ALIGNMENT

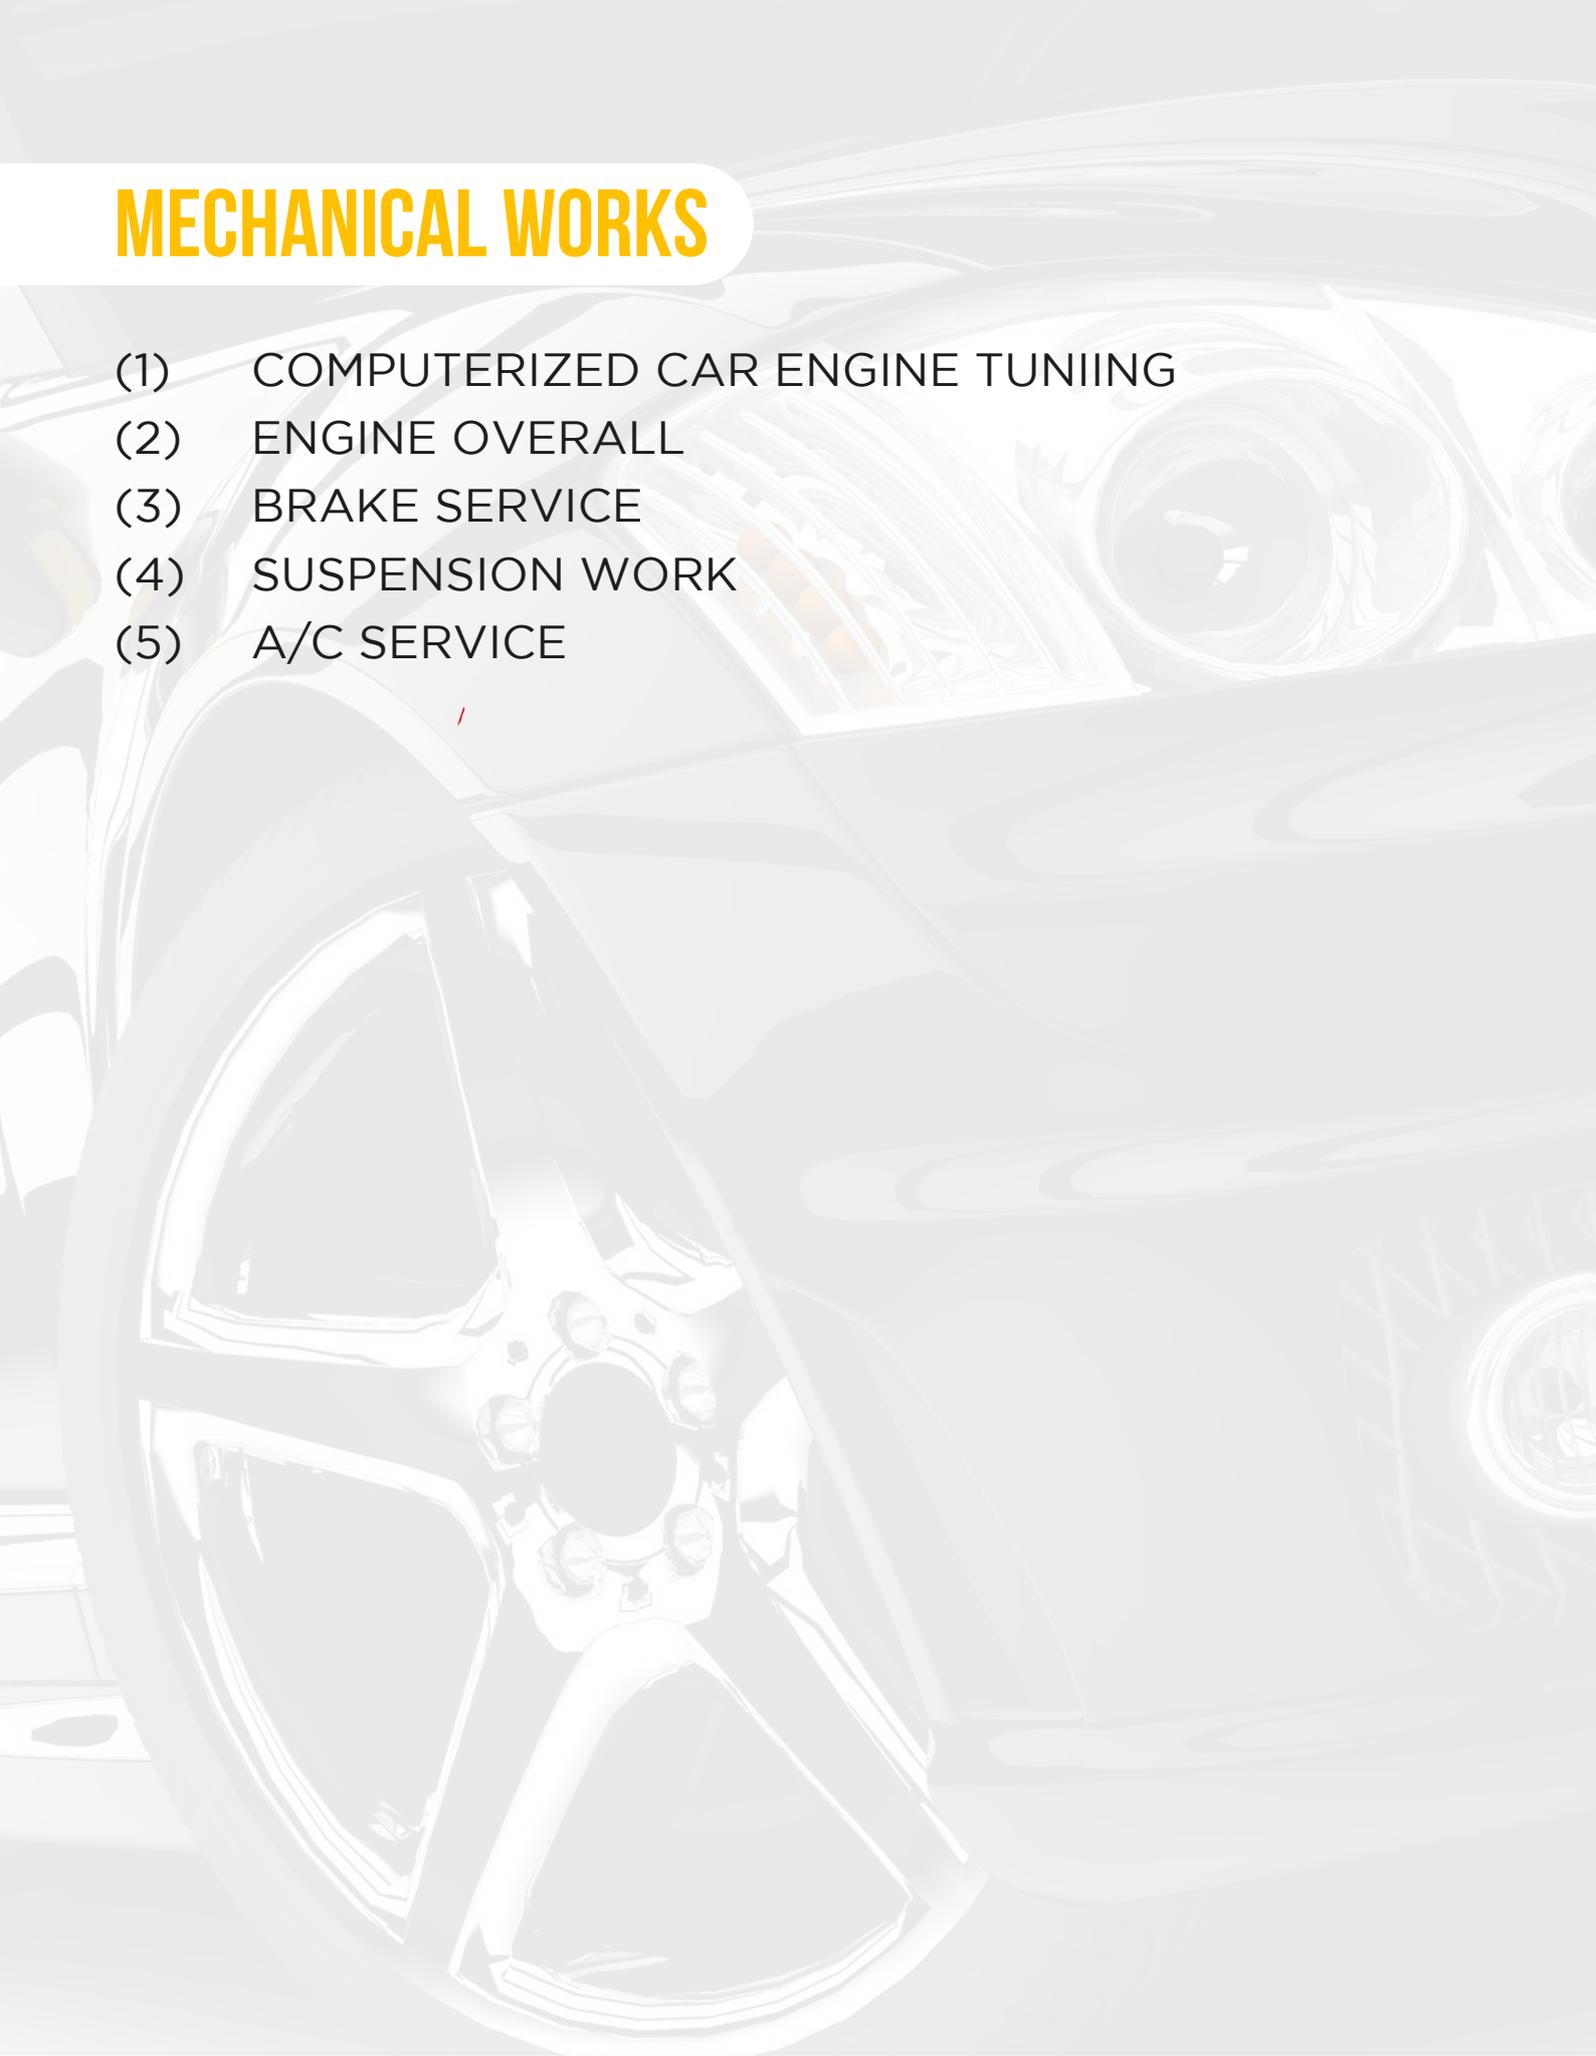

## **Benefits of Wheel Alignment:**

- Reduced Tire Wear
- Improved Fuel Consumption
- Improved Handling & Performance

## **Our Wheel Alignment and Balancing Service includes:**

- Inspection of tire tread wear for signs of misalignment
- Performing necessary wheel alignment adjustments of Front and Rear Tires
- Checking the caster, camber, and toe measurements
- Wheel Balancing of Regular Wheel and Alloys
- Wheel Camber adjustment and Making
